A. Index
B. Glossary
C. Table of contents
D. Caption

4. What does a photograph in an information book help you do?

A. See what something looks like
B. Know the author's age
C. Find the last page
D. Count the chapters

5. What is a fact?

A. Something that can be checked
B. Something someone wishes
C. A made-up character
D. A guess that cannot be checked

6. Which sentence is a fact?

A. Pizza is the best food.
B. Dogs are better than cats.
C. A week has seven days.
D. Blue is the prettiest color.

7. Which sentence is an opinion?

A. A year has twelve months.
B. Some birds can fly.
C. I think summer is the best season.
D. Fish live in water.

8. What does a heading tell you?

A. What a section is about
B. Who printed the book
C. How many books are in a library
D. What time it is

9. What is a caption?

A. Words that explain a picture
B. A list of page numbers
C. The name of a book series
D. A kind of map

10. Where can you look to find the page where a chapter begins?

A. Table of contents
B. Glossary
C. Caption
D. Photograph

11. Which text would help you learn how to plant a seed?

A. A how-to guide
B. A fantasy story
C. A comic about superheroes
D. A poem about the moon

12. Which source is most likely to give facts about ocean animals?

A. An ocean encyclopedia
B. A pretend story about a mermaid
C. A song about the beach
D. A birthday card

13. What does a map help you find?

A. Places and locations
B. Word meanings only
C. The author's opinion
D. The end of a story

14. What does a diagram often show?

A. Parts of something and how they fit together
B. Only jokes
C. A list of characters
D. A book's price

15. Which is a text feature?

A. Heading
B. A reader's lunch
C. A classroom bell
D. A pencil case

16. Which sentence is a fact about bees?

A. Bees are the most interesting insects.
B. Bees help pollinate many flowers.
C. Bees are prettier than butterflies.
D. Everyone should like bees.

17. Which sentence is an opinion?

A. A spider has eight legs.
B. The Earth goes around the Sun.
C. I think spiders are scary.
D. Many plants need water.

18. Why do readers use pictures in nonfiction books?

A. To help understand the information
B. To replace every word
C. To make the book heavier
D. To hide the title

19. What can a label on a diagram tell you?

A. The name of a part
B. A character's secret
C. The author's birthday
D. The story's ending

20. Where would you look for a list of topics and their page numbers at the back of a book?

A. Index
B. Title
C. Caption
D. Cover

21. Which book is nonfiction?

A. A book of real facts about weather
B. A story about a talking cloud
C. A tale about a magic castle
D. A make-believe dragon adventure

22. Which tool helps you find a place in the world?

A. Map
B. Glossary
C. Index
D. Caption

23. What is the main purpose of a how-to text?

A. To explain steps for doing something
B. To tell a made-up adventure
C. To share only jokes
D. To list characters in a play

24. Which sentence is a fact about plants?

A. Plants are more beautiful than rocks.
B. Many plants need sunlight to grow.
C. Gardening is the best hobby.
D. Roses are the nicest flowers.

25. Which sentence is an opinion about plants?

A. Plants can grow from seeds.
B. Some plants have roots.
C. I like roses more than tulips.
D. Leaves can be green.

26. What does a table of contents show?

A. Chapters or sections and their page numbers
B. The meaning of every word
C. Pictures only
D. The author's favorite food

27. Why might a nonfiction book use bold words?

A. To make important words stand out
B. To show the book is fiction
C. To mark every question
D. To replace all pictures

28. What is the best source for facts about the Moon?

A. A science book about space
B. A pretend story about a moon rabbit
C. A toy catalog
D. A menu

29. What can you learn from a weather chart?

A. Weather information
B. A character's feelings
C. A recipe for soup
D. The ending of a fairy tale

30. Which question can a map answer?

A. Where is the library?
B. Who is the funniest person?
C. What is the best game?
D. Which color is prettiest?

31. Which is a reliable way to learn about an animal?

A. Read a nonfiction book from a trusted source
B. Ask a fictional character
C. Guess from its name only
D. Make up an answer

32. What does a photograph of a frog beside a paragraph about frogs do?

A. Shows what a frog may look like
B. Tells the page number
C. Lists the book's chapters
D. Gives a word's opposite

33. What should you do first when researching a topic?

A. Choose a question or topic
B. Write a conclusion without reading
C. Ignore all sources
D. Copy random words

34. Which topic belongs in a book about farm animals?

A. Cows and chickens
B. Planets and stars
C. Ocean tides only
D. Mountain weather only

35. What does the word source mean when researching?

A. Where information comes from
B. A picture's color
C. The last page
D. A kind of punctuation

36. Which is a question you could research?

A. How do bees make honey?
B. Is honey the prettiest food?
C. Are bees funny?
D. Would I like every insect?

37. Why should you read the words around a picture?

A. They may explain what the picture shows
B. They always tell a joke
C. They hide the page number
D. They make the picture disappear

38. Which sentence gives information rather than a personal preference?

A. I love rainy days.
B. Rain comes from clouds.
C. Rainy days are boring.
D. Rain is the worst weather.

39. What can a label beside a picture of a plant identify?

A. A part such as the root or leaf
B. The reader's name
C. The book's price
D. A character's dialogue

40. Which resource would help you find a word's meaning quickly?

A. Dictionary
B. Map
C. Calendar
D. Recipe

41. Which resource would help you find information about different countries?

A. Atlas
B. Comic book
C. Songbook
D. Toy instructions

42. Which sentence is a fact?

A. Turtles are amazing.
B. A turtle has a shell.
C. Turtles are the cutest pets.
D. Everyone should own a turtle.

43. Which sentence is an opinion?

A. A triangle has three sides.
B. Water can freeze into ice.
C. I think math is fun.
D. There are seven days in a week.

44. What is the purpose of a heading called 'How Seeds Grow'?

A. It tells the topic of that section
B. It lists all book prices
C. It names the photographer
D. It gives the book's ending

45. Which item is best for showing where a river flows?

A. Map
B. Glossary
C. Index
D. Title

46. Which item is best for showing the steps of a butterfly's life cycle?

A. Diagram
B. Book price
C. Bookmark
D. Dedication

47. What does an index usually list?

A. Topics and where to find them
B. Only the author's opinions
C. All picture captions in order
D. Only the book title

48. Which is a good research habit?

A. Check information in a trustworthy source
B. Believe every rumor
C. Use only a guess
D. Ignore the question

49. Why do people write informational texts?

A. To explain or teach about a real topic
B. Only to create magic spells
C. Only to tell jokes
D. To hide all facts

50. Which part of a nonfiction book usually names the book and its author?

A. Title page
B. Index
C. Glossary
D. Map key

Medium Questions

51. Read: 'A honeybee visits flowers to collect nectar. As it moves between flowers, it can carry pollen.' What is the main idea?

A. Bees help flowers by carrying pollen
B. All flowers are yellow
C. Bees sleep in flowers
D. Pollen is a kind of bird

52. Read: 'The school garden has tomatoes, beans, and lettuce. Students water the plants each morning.' Which detail supports the idea that students care for the garden?

A. They water plants each morning
B. The school has a gym
C. Tomatoes are red
D. Students eat lunch

53. Read: 'First, fill a pot with soil. Next, place a seed in the soil. Then, water it.' What should you do after filling the pot with soil?

A. Place a seed in the soil
B. Pick the plant
C. Empty the pot
D. Put the pot away

54. A section is titled 'Why Birds Migrate.' What information will most likely be in it?

A. Reasons birds travel to other places
B. How to build a birdhouse
C. A list of bird names only
D. A story about a talking bird

55. Which source is best for checking the current temperature?

A. A current weather report
B. A ten-year-old fairy tale
C. A picture book about dragons
D. A recipe book

56. A chart shows that Monday was sunny and Tuesday was rainy. What can you conclude?

A. The weather changed between the two days
B. It rains every Tuesday
C. Monday is always sunny
D. The chart is about animals

57. Which sentence is an opinion?

A. The library opens at 9 a.m.
B. A dolphin is a mammal.
C. The library is the nicest place in town.
D. A year has 365 days in a common year.

58. Which detail is most relevant to a report about keeping teeth healthy?

A. Brush teeth twice a day
B. The school bus is yellow
C. Some birds build nests
D. The moon looks bright

59. What is the purpose of a glossary in an informational book?

A. Explain important words
B. Show the route between towns
C. List chapters and page numbers
D. Show only photographs

60. Which feature would best help compare the sizes of planets?

A. A labeled chart
B. A story character list
C. A dedication
D. A book review

61. Read: 'A cactus stores water in its thick stem. This helps it survive in dry places.' Why is the thick stem useful?

A. It stores water
B. It catches fish
C. It makes snow
D. It helps it fly

62. Read: 'Some bats eat insects. Others eat fruit or nectar.' Which statement is supported?

A. All bats eat only insects
B. Different bats eat different foods
C. Bats do not eat
D. All bats eat fruit

63. Which question is most focused for a short report on bees?

A. How do bees help plants?
B. What is everything about nature?
C. Why is life interesting?
D. What is the best insect?

64. You find different facts about penguins in two books. What should you do if the facts seem to disagree?

A. Check another trustworthy source
B. Choose the funniest answer
C. Ignore both books
D. Make up a third fact

65. What does a heading help a reader do?

A. Find information about a particular section
B. Know how much the book costs
C. Find the author's home
D. Replace the need to read

66. Which is a fact rather than an opinion?

A. Winter is terrible.
B. Snow is the most beautiful weather.
C. Snow is made of ice crystals.
D. Everyone loves snow.

67. Which is an opinion rather than a fact?

A. A spider has eight legs.
B. Earth has one Moon.
C. Some trees lose leaves in autumn.
D. Autumn is the loveliest season.

68. A diagram has arrows showing water moving from roots to leaves. What does it explain?

A. How water moves through a plant
B. How birds build nests
C. How rocks are made
D. How clouds make sound

69. Which source is best for learning the rules of a game?

A. The game's official instructions
B. A fictional adventure
C. A weather map
D. A book about dinosaurs

70. What is the best way to take notes from a source?

A. Write short key facts in your own words
B. Copy every page without reading
C. Write only the title
D. Add details that are not in the source

71. A text says, 'Earth travels around the Sun once each year.' This statement is a ___.

A. fact
B. opinion
C. question
D. fictional event

72. A text says, 'The Sun is the most beautiful object in space.' This statement is a ___.

A. fact
B. opinion
C. measurement
D. map label

73. Which feature helps readers locate a topic alphabetically near the end of a book?

A. Index
B. Title page
C. Caption
D. Heading

74. Which feature gives a short explanation directly under a picture?

A. Caption
B. Index
C. Glossary
D. Table of contents

75. A table lists each animal and its average weight. What is the table best for?

A. Comparing animal weights
B. Learning a story's ending
C. Finding rhyming words
D. Reading a conversation

76. Read: 'The town planted trees along the street. In summer, their leaves provide shade.' What benefit of trees is stated?

A. They provide shade
B. They make roads longer
C. They stop all rain
D. They produce streetlights

77. Which detail does not belong in a report about ocean pollution?

A. Plastic can harm sea animals
B. Trash can wash into the ocean
C. People can reduce plastic waste
D. The school cafeteria serves pasta on Fridays

78. What should a researcher do after choosing a topic?

A. Find information from suitable sources
B. Write without gathering facts
C. Pick a title and stop
D. Use a random answer

79. Which is the best research question for a report about bees?

A. What do bees collect from flowers?
B. Are bees the nicest animals?
C. Would bees make good pets for everyone?
D. What is the best color for a bee?

80. Why is it useful to compare information from two sources?

A. To check facts and learn more
B. To avoid reading
C. To make every answer an opinion
D. To remove all details

81. Read: 'The first train arrived at 8:00. The second arrived at 8:30.' Which train arrived earlier?

A. The first train
B. The second train
C. Both arrived at the same time
D. The text does not say

82. A map key shows a blue line means river. What does the key help you understand?

A. What map symbols mean
B. How to spell every place
C. The weather tomorrow
D. The story's main idea

83. A timeline lists events from oldest to newest. How is the information organized?

A. In time order
B. By color
C. Alphabetically
D. From largest to smallest

84. Which sentence is a relevant detail for a report about exercise?

A. Walking helps people stay active
B. The library has new chairs
C. A whale lives in the ocean
D. My favorite shirt is green

85. What should you do if a website does not say where its information came from?

A. Look for a more trustworthy source
B. Believe it immediately
C. Share it as a fact
D. Ignore all other sources

86. Which text feature would help you see the parts of a flower?

A. Labeled diagram
B. Index alone
C. Title only
D. Page number

87. Read: 'Many frogs begin life as eggs in water. They hatch into tadpoles.' What happens after the eggs hatch?

A. They become tadpoles
B. They become butterflies
C. They turn into fish
D. They grow feathers

88. Which statement best summarizes: 'Some trees are evergreen. They keep their leaves throughout the year.'

A. Evergreen trees keep their leaves all year
B. All trees are tall
C. Trees grow only in winter
D. Leaves are always yellow

89. Which question can be answered by a table of monthly rainfall?

A. Which month had the most rain?
B. Who is the funniest student?
C. Which story is best?
D. What does the author dream about?

90. Which source is most useful for finding the meaning of a science word?

A. Science glossary
B. Road map
C. Restaurant menu
D. Sports schedule

91. Why should you include only relevant facts in a report?

A. They help explain the topic clearly
B. They make the report confusing
C. They replace the topic
D. They make facts into opinions

92. What does it mean to summarize a text?

A. Tell its most important ideas briefly
B. Copy every sentence
C. Add unrelated details
D. List only difficult words

93. Which is the best summary of a text explaining how to recycle paper?

A. It explains steps for recycling paper
B. It describes a favorite movie
C. It lists all kinds of sports
D. It tells a make-believe story

94. What should you do before using a fact in a school report?

A. Make sure the source supports it
B. Change the fact to sound exciting
C. Remove its meaning
D. Assume it is true because it is online

95. Which item is a primary source for observing today's weather?

A. A thermometer reading taken today
B. A fantasy book
C. A story about last winter
D. A made-up weather report

96. What can a bar graph help readers compare?

A. Amounts in different groups
B. The sound of words
C. Characters' feelings
D. The author's handwriting

97. A nonfiction text has a heading 'Protecting Bees.' Which detail best fits that section?

A. Plant flowers that bees can visit
B. How to train a pet dog
C. Why stars twinkle
D. How to bake bread

98. Which is the best way to show where a place is compared with nearby places?

A. Map
B. Glossary
C. Index
D. Caption

99. Why might an author include a question at the beginning of an informational text?

A. To introduce what the text will explain
B. To hide all the facts
C. To show the text is always fiction
D. To list every source

100. A passage explains that shadows change as the Sun appears to move across the sky. What is the passage mainly explaining?

A. How shadows change during the day
B. How to build a house
C. Why stars are colorful
D. How plants make seeds

Hard Questions

101. Read: 'Beavers build dams from branches and mud. The dams slow the water and create ponds where beavers can live.' Which statement best summarizes the passage?

A. Beavers build dams that help create their habitat
B. All animals live in ponds
C. Mud is the only building material
D. Beavers spend all day swimming

102. Read: 'A seed needs water, air, and the right temperature to begin growing.' Which detail is essential to the main idea?

A. Seeds need suitable conditions to grow
B. Seeds are always blue
C. All plants grow into trees
D. Garden tools are made of metal

103. A report claims that walking to school reduces traffic near the school. Which evidence would best support the claim?

A. Traffic counts before and after more students walk
B. A student's favorite color
C. A story about a magic bus
D. A list of lunch choices

104. Which source is likely to be most reliable for a report on a national park's rules?

A. The park's official website or guide
B. An anonymous comment with no evidence
C. A fictional adventure set in a park
D. A random guess

105. A passage gives steps for washing hands in order. What text structure does it mainly use?

A. Sequence
B. Compare and contrast
C. Problem and solution only
D. Question and answer only

106. A passage explains how two kinds of frogs are alike and different. What text structure is being used?

A. Compare and contrast
B. Sequence only
C. Directions only
D. A list of unrelated facts

107. A passage describes litter in a park and ways the community can clean it up. What structure is most likely used?

A. Problem and solution
B. Alphabetical order
C. Rhyming pairs
D. A character dialogue

108. A graph shows that a class collected more cans in May than April. What conclusion is supported?

A. The class collected more cans in May
B. Every class collected more cans in May
C. May always has more recycling
D. The cans were all the same size

109. Two sources give different numbers for the same animal's lifespan. What is the best next step?

A. Check each source's date and reliability, then seek another trusted source
B. Choose the larger number because it sounds better
C. Average them without checking
D. Use whichever number is shorter

110. Which statement is an opinion even if many people agree with it?

A. A blue whale is a mammal
B. The Earth has continents
C. Blue whales are the most amazing animals
D. Water freezes at about 0°C under standard conditions

111. A text says, 'The city opened a new playground on June 4.' What kind of statement is this?

A. A verifiable fact
B. A personal preference
C. An unsupported feeling
D. A fictional detail

112. Which research question is narrow enough for a short Grade 1 report?

A. How do worms help soil?
B. Tell me everything about the world
C. Why is nature perfect?
D. What is the best thing ever?

113. A diagram labels the roots, stem, leaves, and flower. What is its main purpose?

A. Identify the parts of a plant
B. Show the author's opinion
C. List the book's chapters
D. Compare two cities

114. Why might a nonfiction author use both a paragraph and a chart?

A. The paragraph explains ideas while the chart organizes data
B. The chart makes facts unnecessary
C. The paragraph must be fiction
D. The two features always repeat exactly the same words

115. Which detail is least relevant to a report about saving water at home?

A. Turn off the tap while brushing
B. Fix leaking faucets
C. Use a bucket when suitable
D. The family watched a comedy last night

116. Read: 'The first stage is an egg. Next comes a caterpillar, then a chrysalis, and finally a butterfly.' What does the word finally signal?

A. The last stage in the sequence
B. The first stage
C. A different topic
D. An opinion

117. A student writes, 'All owls hunt only at night,' after reading about one owl species. What is the problem with the claim?

A. It makes a broad claim from limited information
B. It uses a heading
C. It includes a fact about an owl
D. It is written in a complete sentence

118. Which note is the best paraphrase of 'Many plants use sunlight to make their own food'?

A. Plants often use light from the Sun to produce food
B. Many plants use sunlight to make their own food
C. Plants are the prettiest living things
D. Sunlight is always hot

119. Why should a student name the source of information in a report?

A. So readers can tell where the information came from
B. To make the report longer without reason
C. To replace the conclusion
D. To turn facts into opinions

120. A chart lists the height of four plants measured each week. What question can the chart answer?

A. Which plant grew tallest during the weeks measured?
B. Which plant smells best?
C. Who planted the prettiest garden?
D. Which plant is the author's favorite?

121. A text explains that ice melts when it warms. Which observation best supports this idea?

A. An ice cube becomes a puddle in a warm room
B. A book falls off a desk
C. A flower changes color in a picture
D. A bird builds a nest

122. Which is the strongest evidence for the claim that a school garden attracts pollinators?

A. Observations recording bees and butterflies visiting flowers
B. A student's opinion that gardens look nice
C. A drawing of a dragon
D. A list of school holidays

123. A heading reads 'How to Stay Safe in the Sun.' Which detail belongs under it?

A. Wear a hat and seek shade
B. How clouds form on Jupiter
C. The history of bicycles
D. How to make a paper airplane

124. What is the difference between a topic and a main idea?

A. The topic is what the text is about; the main idea tells the key point about it
B. They always mean exactly the same thing
C. The topic is a picture; the main idea is a page number
D. The main idea is always the title

125. Which sentence is the best summary of a passage about bees pollinating flowers and helping plants make seeds?

A. Bees can help flowering plants reproduce by moving pollen
B. Bees have wings and legs
C. Flowers come in many colors
D. Some people are afraid of insects

126. A student finds an old webpage and a current government page with different safety advice. Which should the student investigate first?

A. The current government page, while checking dates and details
B. The older page because it is older
C. Neither source
D. A fictional story

127. Which feature would best help a reader compare the daily temperatures for a week?

A. A table or graph of temperatures
B. A glossary of unrelated words
C. A picture caption about a bird
D. A list of characters

128. Which question is best answered by an index?

A. On which pages is the topic 'volcanoes' discussed?
B. What is the author's favorite topic?
C. What will happen tomorrow?
D. Which page is the most beautiful?

129. What is the purpose of a caption under a photograph of a sea turtle?

A. Give information about the photograph
B. List every chapter
C. Explain all words in the book
D. Show the author's address

130. A passage says a town built a rain garden because streets often flooded. Which relationship is described?

A. A problem and a response to it
B. Two words that rhyme
C. Events in alphabetical order
D. A comparison of animal sizes

131. A report includes a claim that trees cool streets. Which additional information would help readers understand why?

A. An explanation that shade blocks sunlight and leaves release water vapor
B. A list of tree names with no details
C. A drawing of a school bus
D. A student's favorite season

132. Which source is best for confirming the opening hours of a museum today?

A. The museum's current official information
B. A five-year-old diary
C. A fictional book
D. An unrelated social media post

133. What should you do when a source does not answer your research question?

A. Look for another relevant source
B. Pretend it answers the question
C. Add an invented fact
D. Stop checking information

134. A text uses words such as first, next, then, and last. What do these words help show?

A. Order of steps or events
B. A person's opinion
C. A map's scale
D. A word's definition

135. Which statement is best supported by a table showing that a plant grew 2 cm in week one and 3 cm in week two?

A. The plant grew more in week two than in week one
B. Every plant grows 3 cm each week
C. The plant will grow forever
D. Week two is the best week

136. Which sentence is an unsupported generalization?

A. This sample has three red beads
B. The chart shows five rainy days
C. One dog barked, so all dogs bark all day
D. The book lists four planets

137. Why is it useful to separate facts from opinions when researching?

A. It helps distinguish checkable information from personal judgments
B. It makes every source reliable
C. It means opinions can never be discussed
D. It removes the need for evidence

138. A student uses a photograph from a book in a project. What should the student do?

A. Follow the teacher's directions for crediting the source
B. Claim to have taken every photograph
C. Remove the caption and source information
D. Change the facts in the caption

139. A passage explains that recycling paper saves resources and reduces waste. Which detail supports the main idea?

A. Used paper can be processed into new paper products
B. Paper can have different colors
C. Some books have hard covers
D. Pencils can be sharpened

140. Which is the best order for a simple research project?

A. Choose a question, find sources, take notes, share findings
B. Share findings, choose a question, then guess
C. Take notes, ignore sources, choose a topic
D. Choose a conclusion, invent notes, find a title

141. Which question would require comparing two sources?

A. What do both sources say about how plants get water?
B. What is the title of this one book?
C. How many pages does this book have?
D. What is the first word in this paragraph?

142. A source states a fact but gives no evidence. What is a sensible response?

A. Look for supporting evidence from a reliable source
B. Treat it as certainly true
C. Turn it into a question and stop
D. Add unrelated details

143. A map shows a scale and a key. What do these features help a reader understand?

A. Distances and symbols on the map
B. The meaning of every word in a book
C. A story's plot
D. The author's feelings

144. Which statement best describes an informational text?

A. It presents information to explain a real topic
B. It must always include talking animals
