Grade 3 ELA Question Bank

Topic 3: Informational Text and Research Skills

150 multiple-choice questions • 50 Easy • 50 Medium • 50 Hard

Standards alignment: Common Core Grade 3 Informational Text (RI.3.1–RI.3.10). Skills include main idea and supporting details, explaining connections, vocabulary in context, author's purpose, text evidence, interpreting information, and evaluating sources.

Instructions: Read each informational passage and choose the best answer.

Easy Questions (50)

Passage: How Bees Help Plants

Bees visit flowers to collect nectar and pollen. As a bee moves from flower to flower, pollen can stick to its body and reach another flower. This process helps many plants make seeds. Bees also make honey, but their work pollinating plants is important to gardens and farms.

1. What is the main idea of “How Bees Help Plants”?

A. The passage is mainly a list of unrelated facts.
B. The passage is mostly about a person’s daily schedule.
C. Bees help plants by moving pollen between flowers.
D. The passage explains why the topic should be ignored.

2. Which detail from the passage supports its main idea?

A. The passage focuses on an unrelated event.
B. The passage says nothing about this topic.
C. Bees visit flowers to collect nectar and pollen.
D. Pollen can stick to a bee’s body.

3. What does “pollination” mean as it is used in the passage?

A. a place to eat
B. a kind of toy
C. moving pollen between flowers
D. a type of vehicle

4. Which statement is explicitly supported by the passage?

A. Pollination helps many plants make seeds.
B. Every example in the passage is described as impossible.
C. The topic has no connection to everyday life.
D. The passage gives no information about the topic.

5. What is the author’s main purpose?

A. to explain or inform readers about a topic
B. to tell a fictional adventure
C. to describe a personal dream
D. to persuade readers to buy a product

6. Which text feature or reading strategy would best help a reader understand this topic?

A. guessing without using the passage
B. ignoring the details
C. identifying the main idea and supporting details
D. reading only the final word

7. Which conclusion is best supported by the passage?

A. The topic never changes in any situation.
B. seeds
C. The opposite of the passage must be true.
D. The passage proves that no further information is useful.

8. Why is the detail about gardens and farms included?

A. it introduces an unrelated story
B. it helps explain or support the passage’s main idea
C. it proves the topic is imaginary
D. it replaces all the other details

9. Which question can be answered using information in the passage?

A. What will happen a hundred years from now?
B. What did the author eat yesterday?
C. What does the passage explain about how bees help plants?
D. What is every reader thinking right now?

10. Which is the best way to check a claim for a school research report?

A. compare reliable sources and check whether the evidence supports it
B. choose the claim that sounds most surprising
C. accept the first result without checking
D. use only a headline

Passage: Why Leaves Change Color

Many tree leaves are green during spring and summer because they contain chlorophyll. In autumn, days become shorter and some trees stop making as much chlorophyll. Other colors that were hidden in the leaves become easier to see. Leaves may look yellow, orange, or red before they fall.

11. What is the main idea of “Why Leaves Change Color”?

A. Leaves change color in autumn as chlorophyll decreases and other colors show.
B. The passage is mainly a list of unrelated facts.
C. The passage explains why the topic should be ignored.
D. The passage is mostly about a person’s daily schedule.

12. Which detail from the passage supports its main idea?

A. The passage focuses on an unrelated event.
B. Yellow, orange, and red colors may appear.
C. Autumn days become shorter.
D. The passage says nothing about this topic.

13. What does “chlorophyll” mean as it is used in the passage?

A. a place to eat
B. the substance that helps leaves look green
C. a type of vehicle
D. a kind of toy

14. Which statement is explicitly supported by the passage?

A. Leaves eventually fall from some trees.
B. Every example in the passage is described as impossible.
C. The passage gives no information about the topic.
D. The topic has no connection to everyday life.

15. What is the author’s main purpose?

A. to explain or inform readers about a topic
B. to describe a personal dream
C. to tell a fictional adventure
D. to persuade readers to buy a product

16. Which text feature or reading strategy would best help a reader understand this topic?

A. identifying the main idea and supporting details
B. reading only the final word
C. guessing without using the passage
D. ignoring the details

17. Which conclusion is best supported by the passage?

A. The topic never changes in any situation.
B. red
C. The opposite of the passage must be true.
D. The passage proves that no further information is useful.

18. Why is the detail about autumn included?

A. it replaces all the other details
B. it proves the topic is imaginary
C. it helps explain or support the passage’s main idea
D. it introduces an unrelated story

19. Which question can be answered using information in the passage?

A. What did the author eat yesterday?
B. What does the passage explain about why leaves change color?

C. What will happen a hundred years from now?
D. What is every reader thinking right now?

20. Which is the best way to check a claim for a school research report?

A. use only a headline
B. choose the claim that sounds most surprising
C. accept the first result without checking
D. compare reliable sources and check whether the evidence supports it

Passage: A Library Book's Journey

When a library buys a new book, a librarian adds a record to the library system. A label is placed on the book so it can be sorted and found. After a reader checks it out, the library system records who borrowed it and when it is due. Returning books on time helps other readers borrow them.

21. What is the main idea of "A Library Book's Journey"?

A. The passage is mainly a list of unrelated facts.
B. The passage explains why the topic should be ignored.
C. The library uses records and labels to organize books and lend them to readers.
D. The passage is mostly about a person's daily schedule.

22. Which detail from the passage supports its main idea?

A. Returning books on time helps other readers.
B. The system records checkout information.
C. The passage focuses on an unrelated event.
D. The passage says nothing about this topic.

23. What does "checkout" mean as it is used in the passage?

A. borrowing a book from the library
B. a type of vehicle
C. a place to eat
D. a kind of toy

24. Which statement is explicitly supported by the passage?

A. A librarian adds a record for a new book.
B. Every example in the passage is described as impossible.
C. The topic has no connection to everyday life.
D. The passage gives no information about the topic.

25. What is the author's main purpose?

A. to describe a personal dream
B. to persuade readers to buy a product
C. to explain or inform readers about a topic
D. to tell a fictional adventure

26. Which text feature or reading strategy would best help a reader understand this topic?

A. ignoring the details
B. reading only the final word
C. guessing without using the passage
D. identifying the main idea and supporting details

27. Which conclusion is best supported by the passage?

A. The opposite of the passage must be true.
B. label
C. The passage proves that no further information is useful.
D. The topic never changes in any situation.

28. Why is the detail about library system included?

A. it replaces all the other details
B. it helps explain or support the passage's main idea
C. it introduces an unrelated story
D. it proves the topic is imaginary

29. Which question can be answered using information in the passage?

A. What did the author eat yesterday?
B. What will happen a hundred years from now?
C. What is every reader thinking right now?
D. What does the passage explain about a library book's journey?

30. Which is the best way to check a claim for a school research report?

A. use only a headline
B. choose the claim that sounds most surprising
C. compare reliable sources and check whether the evidence supports it
D. accept the first result without checking

Passage: Staying Safe in a Thunderstorm

A thunderstorm can bring lightning, heavy rain, and strong winds. When thunder is heard, people should go inside a sturdy building or a closed vehicle. They should stay away from tall isolated trees and open fields. It is safest to wait until the storm has passed before returning outside.

31. What is the main idea of "Staying Safe in a Thunderstorm"?

A. The passage explains why the topic should be ignored.
B. The safest response to a thunderstorm is to take shelter indoors and wait.
C. The passage is mainly a list of unrelated facts.
D. The passage is mostly about a person's daily schedule.

32. Which detail from the passage supports its main idea?

A. The passage focuses on an unrelated event.
B. People should wait until the storm passes.
C. The passage says nothing about this topic.
D. Thunderstorms may bring lightning and strong winds.

33. What does "shelter" mean as it is used in the passage?

A. a kind of toy
B. a place to eat
C. a place that protects people from danger or weather
D. a type of vehicle

34. Which statement is explicitly supported by the passage?

A. The passage gives no information about the topic.
B. Every example in the passage is described as impossible.
C. The topic has no connection to everyday life.
D. A sturdy building can provide shelter.

35. What is the author's main purpose?

A. to describe a personal dream
B. to tell a fictional adventure
C. to persuade readers to buy a product
D. to explain or inform readers about a topic

36. Which text feature or reading strategy would best help a reader understand this topic?

A. guessing without using the passage
B. identifying the main idea and supporting details
C. ignoring the details
D. reading only the final word

37. Which conclusion is best supported by the passage?

A. The topic never changes in any situation.
B. The passage proves that no further information is useful.
C. lightning
D. The opposite of the passage must be true.

38. Why is the detail about a sturdy building included?

A. it proves the topic is imaginary

B. it helps explain or support the passage's main idea
C. it replaces all the other details
D. it introduces an unrelated story

39. Which question can be answered using information in the passage?

A. What will happen a hundred years from now?
B. What does the passage explain about staying safe in a thunderstorm?
C. What did the author eat yesterday?
D. What is every reader thinking right now?

40. Which is the best way to check a claim for a school research report?

A. use only a headline
B. accept the first result without checking
C. compare reliable sources and check whether the evidence supports it
D. choose the claim that sounds most surprising

Passage: How a Map Key Works

A map uses symbols to show places and features. A map key explains what those symbols mean. For example, a small blue line might stand for a river, while a black line could show a road. Readers use the key to understand the information on the map.

41. What is the main idea of "How a Map Key Works"?

A. The passage explains why the topic should be ignored.
B. A map key explains the meaning of symbols on a map.
C. The passage is mainly a list of unrelated facts.
D. The passage is mostly about a person's daily schedule.

42. Which detail from the passage supports its main idea?

A. Maps use symbols to show features.
B. The passage says nothing about this topic.
C. A blue line may represent a river.
D. The passage focuses on an unrelated event.

43. What does "map key" mean as it is used in the passage?

A. a place to eat
B. a type of vehicle
C. a guide that explains map symbols
D. a kind of toy

44. Which statement is explicitly supported by the passage?

A. The topic has no connection to everyday life.
B. Every example in the passage is described as impossible.
C. The passage gives no information about the topic.
D. A black line may represent a road.

45. What is the author's main purpose?

A. to tell a fictional adventure
B. to persuade readers to buy a product
C. to explain or inform readers about a topic
D. to describe a personal dream

46. Which text feature or reading strategy would best help a reader understand this topic?

A. ignoring the details
B. guessing without using the passage
C. identifying the main idea and supporting details
D. reading only the final word

47. Which conclusion is best supported by the passage?

A. The passage proves that no further information is useful.
B. The topic never changes in any situation.
C. The opposite of the passage must be true.

D. symbols

48. Why is the detail about a river included?

A. it replaces all the other details
B. it introduces an unrelated story
C. it proves the topic is imaginary
D. it helps explain or support the passage’s main idea

49. Which question can be answered using information in the passage?

A. What is every reader thinking right now?
B. What does the passage explain about how a map key works?
C. What will happen a hundred years from now?
D. What did the author eat yesterday?

50. Which is the best way to check a claim for a school research report?

A. choose the claim that sounds most surprising
B. accept the first result without checking
C. use only a headline
D. compare reliable sources and check whether the evidence supports it

Medium Questions (50)

Passage: Composting at School

A school compost bin can turn certain food scraps and dry leaves into material that helps soil. Fruit peels, vegetable scraps, and dry leaves can often be composted. Plastic wrappers and glass should not go in the bin. The class mixes the materials and keeps the pile slightly moist. Over time, tiny organisms break the scraps down.

51. What is the main idea of “Composting at School”?

A. The passage is mainly a list of unrelated facts.
B. The passage is mostly about a person’s daily schedule.
C. Composting turns suitable organic waste into material that can improve soil.
D. The passage explains why the topic should be ignored.

52. Which detail from the passage supports its main idea?

A. The passage focuses on an unrelated event.
B. Plastic wrappers and glass do not belong in the bin.
C. The passage says nothing about this topic.
D. Fruit and vegetable scraps can often be composted.

53. What does “compost” mean as it is used in the passage?

A. a type of vehicle
B. material made as organic waste breaks down
C. a place to eat
D. a kind of toy

54. Which statement is explicitly supported by the passage?

A. The topic has no connection to everyday life.
B. The pile should be slightly moist.
C. The passage gives no information about the topic.
D. Every example in the passage is described as impossible.

55. What is the author’s main purpose?

A. to tell a fictional adventure
B. to persuade readers to buy a product
C. to explain or inform readers about a topic
D. to describe a personal dream

56. Which text feature or reading strategy would best help a reader understand this topic?

A. guessing without using the passage
B. ignoring the details
C. reading only the final word
D. identifying the main idea and supporting details

57. Which conclusion is best supported by the passage?

A. The opposite of the passage must be true.
B. tiny organisms
C. The topic never changes in any situation.
D. The passage proves that no further information is useful.

58. Why is the detail about plastic wrappers included?

A. it replaces all the other details
B. it proves the topic is imaginary
C. it introduces an unrelated story
D. it helps explain or support the passage’s main idea

59. Which question can be answered using information in the passage?

A. What does the passage explain about composting at school?
B. What will happen a hundred years from now?
C. What is every reader thinking right now?
D. What did the author eat yesterday?

60. Which is the best way to check a claim for a school research report?

A. accept the first result without checking
B. use only a headline
C. compare reliable sources and check whether the evidence supports it
D. choose the claim that sounds most surprising

Passage: The Water Cycle

The sun warms water in oceans, lakes, and rivers. Some water changes into vapor and rises into the air; this is evaporation. Higher in the air, the vapor cools and forms tiny droplets in clouds, a process called condensation. When droplets become heavy enough, water falls as rain or snow. This cycle repeats.

61. What is the main idea of “The Water Cycle”?

A. The passage explains why the topic should be ignored.
B. The water cycle moves water between Earth’s surface and the atmosphere.
C. The passage is mostly about a person’s daily schedule.
D. The passage is mainly a list of unrelated facts.

62. Which detail from the passage supports its main idea?

A. The passage focuses on an unrelated event.
B. Water vapor cools and forms droplets during condensation.
C. Water may fall as rain or snow.
D. The passage says nothing about this topic.

63. What does “evaporation” mean as it is used in the passage?

A. a kind of toy
B. a type of vehicle
C. a place to eat
D. when liquid water changes into water vapor

64. Which statement is explicitly supported by the passage?

A. The topic has no connection to everyday life.
B. The passage gives no information about the topic.
C. The cycle repeats over time.
D. Every example in the passage is described as impossible.

65. What is the author’s main purpose?

A. to describe a personal dream
B. to explain or inform readers about a topic
C. to tell a fictional adventure
D. to persuade readers to buy a product

66. Which text feature or reading strategy would best help a reader understand this topic?

A. ignoring the details
B. guessing without using the passage
C. identifying the main idea and supporting details
D. reading only the final word

67. Which conclusion is best supported by the passage?

A. The opposite of the passage must be true.
B. rain or snow
C. The passage proves that no further information is useful.
D. The topic never changes in any situation.

68. Why is the detail about condensation included?

A. it introduces an unrelated story
B. it replaces all the other details
C. it helps explain or support the passage’s main idea
D. it proves the topic is imaginary

69. Which question can be answered using information in the passage?

A. What does the passage explain about the water cycle?
B. What did the author eat yesterday?

C. What will happen a hundred years from now?
D. What is every reader thinking right now?

70. Which is the best way to check a claim for a school research report?

A. compare reliable sources and check whether the evidence supports it
B. choose the claim that sounds most surprising
C. use only a headline
D. accept the first result without checking

Passage: Planning a Community Garden

Before planting a community garden, volunteers study the amount of sunlight, the soil, and the space available. They choose plants that fit those conditions. A watering schedule helps prevent some plants from drying out, while signs can tell visitors which crops are growing. Keeping a simple record of harvests helps the group plan for the next season.

71. What is the main idea of “Planning a Community Garden”?

A. The passage is mainly a list of unrelated facts.
B. The passage explains why the topic should be ignored.
C. The passage is mostly about a person’s daily schedule.
D. Successful community gardens depend on planning, care, and record keeping.

72. Which detail from the passage supports its main idea?

A. Harvest records support future planning.
B. The passage says nothing about this topic.
C. The passage focuses on an unrelated event.
D. A watering schedule helps plants.

73. What does “harvest” mean as it is used in the passage?

A. a type of vehicle
B. the crops gathered from plants
C. a place to eat
D. a kind of toy

74. Which statement is explicitly supported by the passage?

A. The topic has no connection to everyday life.
B. Volunteers check sunlight, soil, and space.
C. The passage gives no information about the topic.
D. Every example in the passage is described as impossible.

75. What is the author’s main purpose?

A. to describe a personal dream
B. to explain or inform readers about a topic
C. to tell a fictional adventure
D. to persuade readers to buy a product

76. Which text feature or reading strategy would best help a reader understand this topic?

A. guessing without using the passage
B. identifying the main idea and supporting details
C. reading only the final word
D. ignoring the details

77. Which conclusion is best supported by the passage?

A. The opposite of the passage must be true.
B. watering schedule
C. The topic never changes in any situation.
D. The passage proves that no further information is useful.

78. Why is the detail about sunlight and soil included?

A. it proves the topic is imaginary
B. it introduces an unrelated story
C. it replaces all the other details
D. it helps explain or support the passage’s main idea

79. Which question can be answered using information in the passage?

A. What does the passage explain about planning a community garden?
B. What is every reader thinking right now?
C. What will happen a hundred years from now?
D. What did the author eat yesterday?

80. Which is the best way to check a claim for a school research report?

A. choose the claim that sounds most surprising
B. accept the first result without checking
C. use only a headline
D. compare reliable sources and check whether the evidence supports it

Passage: How Bridges Carry Loads

A bridge must support its own weight as well as the people or vehicles crossing it. Some bridges use arches to direct forces toward strong supports. Others use cables to hold up a roadway. Engineers choose designs by considering the distance to cross, the materials available, and the loads the bridge must carry.

81. What is the main idea of “How Bridges Carry Loads”?

A. The passage is mainly a list of unrelated facts.
B. The passage is mostly about a person’s daily schedule.
C. The passage explains why the topic should be ignored.
D. Bridge designs help direct and support loads safely.

82. Which detail from the passage supports its main idea?

A. The passage focuses on an unrelated event.
B. A bridge supports its own weight and traffic.
C. The passage says nothing about this topic.
D. Engineers consider distance, materials, and loads.

83. What does “load” mean as it is used in the passage?

A. a place to eat
B. a kind of toy
C. a weight or force a structure must support
D. a type of vehicle

84. Which statement is explicitly supported by the passage?

A. The passage gives no information about the topic.
B. The topic has no connection to everyday life.
C. Every example in the passage is described as impossible.
D. Arches direct forces toward supports.

85. What is the author’s main purpose?

A. to describe a personal dream
B. to tell a fictional adventure
C. to persuade readers to buy a product
D. to explain or inform readers about a topic

86. Which text feature or reading strategy would best help a reader understand this topic?

A. reading only the final word
B. guessing without using the passage
C. ignoring the details
D. identifying the main idea and supporting details

87. Which conclusion is best supported by the passage?

A. The topic never changes in any situation.
B. The opposite of the passage must be true.
C. The passage proves that no further information is useful.
D. the distance and expected loads

88. Why is the detail about arches and cables included?

A. it helps explain or support the passage’s main idea

B. it proves the topic is imaginary
C. it introduces an unrelated story
D. it replaces all the other details

89. Which question can be answered using information in the passage?

A. What does the passage explain about how bridges carry loads?
B. What did the author eat yesterday?
C. What is every reader thinking right now?
D. What will happen a hundred years from now?

90. Which is the best way to check a claim for a school research report?

A. compare reliable sources and check whether the evidence supports it
B. use only a headline
C. choose the claim that sounds most surprising
D. accept the first result without checking

Passage: Reading a Weather Forecast

A weather forecast uses observations and computer models to estimate future conditions. Forecasters examine temperature, air pressure, wind, and moisture. A forecast is not a promise because weather can change as new information arrives. Checking an updated forecast can help people prepare for rain, heat, or strong winds.

91. What is the main idea of “Reading a Weather Forecast”?

A. A forecast estimates future weather using observations and models, but it can change.
B. The passage is mainly a list of unrelated facts.
C. The passage explains why the topic should be ignored.
D. The passage is mostly about a person’s daily schedule.

92. Which detail from the passage supports its main idea?

A. The passage says nothing about this topic.
B. The passage focuses on an unrelated event.
C. Forecasters examine temperature, pressure, wind, and moisture.
D. Computer models help estimate conditions.

93. What does “forecast” mean as it is used in the passage?

A. a place to eat
B. a kind of toy
C. an estimate of future weather
D. a type of vehicle

94. Which statement is explicitly supported by the passage?

A. The passage gives no information about the topic.
B. Weather can change as new information arrives.
C. The topic has no connection to everyday life.
D. Every example in the passage is described as impossible.

95. What is the author’s main purpose?

A. to explain or inform readers about a topic
B. to persuade readers to buy a product
C. to describe a personal dream
D. to tell a fictional adventure

96. Which text feature or reading strategy would best help a reader understand this topic?

A. identifying the main idea and supporting details
B. guessing without using the passage
C. ignoring the details
D. reading only the final word

97. Which conclusion is best supported by the passage?

A. The topic never changes in any situation.
B. new information
C. The opposite of the passage must be true.

D. The passage proves that no further information is useful.

98. Why is the detail about air pressure included?

A. it helps explain or support the passage’s main idea
B. it introduces an unrelated story
C. it proves the topic is imaginary
D. it replaces all the other details

99. Which question can be answered using information in the passage?

A. What does the passage explain about reading a weather forecast?
B. What is every reader thinking right now?
C. What did the author eat yesterday?
D. What will happen a hundred years from now?

100. Which is the best way to check a claim for a school research report?

A. use only a headline
B. accept the first result without checking
C. compare reliable sources and check whether the evidence supports it
D. choose the claim that sounds most surprising

Hard Questions (50)

Passage: Testing Paper Towels

A science group wanted to compare how much water different paper towels could absorb. They cut each towel to the same size, poured the same amount of water into separate trays, and waited the same length of time. They repeated each test three times and recorded the results. One towel absorbed more water in all three trials, so the group concluded it performed best under their test conditions.

101. What is the main idea of “Testing Paper Towels”?

A. The passage explains why the topic should be ignored.
B. The group compared paper towels using a controlled, repeated test.
C. The passage is mainly a list of unrelated facts.
D. The passage is mostly about a person’s daily schedule.

102. Which detail from the passage supports its main idea?

A. The passage says nothing about this topic.
B. The group used the same amount of water and waiting time.
C. Each towel was cut to the same size.
D. The passage focuses on an unrelated event.

103. What does “trial” mean as it is used in the passage?

A. a place to eat
B. one time a test is carried out
C. a kind of toy
D. a type of vehicle

104. Which statement is explicitly supported by the passage?

A. The passage gives no information about the topic.
B. The topic has no connection to everyday life.
C. Every example in the passage is described as impossible.
D. They repeated tests three times.

105. What is the author’s main purpose?

A. to explain or inform readers about a topic
B. to persuade readers to buy a product
C. to tell a fictional adventure
D. to describe a personal dream

106. Which text feature or reading strategy would best help a reader understand this topic?

A. identifying the main idea and supporting details
B. guessing without using the passage
C. ignoring the details
D. reading only the final word

107. Which conclusion is best supported by the passage?

A. The passage proves that no further information is useful.
B. three times
C. The opposite of the passage must be true.
D. The topic never changes in any situation.

108. Why is the detail about same size and amount of water included?

A. it helps explain or support the passage’s main idea
B. it introduces an unrelated story
C. it replaces all the other details
D. it proves the topic is imaginary

109. Which question can be answered using information in the passage?

A. What did the author eat yesterday?
B. What does the passage explain about testing paper towels?
C. What will happen a hundred years from now?
D. What is every reader thinking right now?

110. Which is the best way to check a claim for a school research report?

A. compare reliable sources and check whether the evidence supports it
B. use only a headline
C. choose the claim that sounds most surprising
D. accept the first result without checking

Passage: Protecting a Local Wetland

Wetlands provide habitats for birds, fish, insects, and plants. They can also slow floodwater and trap some pollutants before water reaches rivers. Building roads or draining land may damage these habitats. A local team mapped the wetland, counted bird species, and tested water clarity each month. The records helped the team notice changes and decide where protection was most needed.

111. What is the main idea of “Protecting a Local Wetland”?

A. The passage is mostly about a person’s daily schedule.
B. The passage explains why the topic should be ignored.
C. Wetlands support wildlife and provide environmental benefits, so monitoring can guide protection.
D. The passage is mainly a list of unrelated facts.

112. Which detail from the passage supports its main idea?

A. They can slow floodwater and trap some pollutants.
B. The passage says nothing about this topic.
C. Road building and draining may damage wetlands.
D. The passage focuses on an unrelated event.

113. What does “habitat” mean as it is used in the passage?

A. a type of vehicle
B. the place where an organism lives
C. a kind of toy
D. a place to eat

114. Which statement is explicitly supported by the passage?

A. The passage gives no information about the topic.
B. The topic has no connection to everyday life.
C. Monthly records help identify changes.
D. Every example in the passage is described as impossible.

115. What is the author’s main purpose?

A. to persuade readers to buy a product
B. to tell a fictional adventure
C. to explain or inform readers about a topic
D. to describe a personal dream

116. Which text feature or reading strategy would best help a reader understand this topic?

A. guessing without using the passage
B. ignoring the details
C. identifying the main idea and supporting details
D. reading only the final word

117. Which conclusion is best supported by the passage?

A. The topic never changes in any situation.
B. The opposite of the passage must be true.
C. The passage proves that no further information is useful.
D. where protection was most needed

118. Why is the detail about monthly monitoring records included?

A. it replaces all the other details
B. it helps explain or support the passage’s main idea
C. it proves the topic is imaginary
D. it introduces an unrelated story

119. Which question can be answered using information in the passage?

A. What is every reader thinking right now?
B. What does the passage explain about protecting a local wetland?
C. What will happen a hundred years from now?
D. What did the author eat yesterday?

120. Which is the best way to check a claim for a school research report?

A. compare reliable sources and check whether the evidence supports it
B. accept the first result without checking
C. use only a headline
D. choose the claim that sounds most surprising

Passage: Choosing a Reliable Source

For a report about ancient Egypt, Leo found a personal blog, a museum page, and an encyclopedia entry. The blog included interesting claims but named no sources. The museum page explained where its artifacts came from, and the encyclopedia listed references. Leo compared the claims across sources and used the information he could verify rather than accepting the first result he found.

121. What is the main idea of “Choosing a Reliable Source”?

A. Researchers should evaluate sources and verify claims before using information.
B. The passage explains why the topic should be ignored.
C. The passage is mostly about a person’s daily schedule.
D. The passage is mainly a list of unrelated facts.

122. Which detail from the passage supports its main idea?

A. The passage focuses on an unrelated event.
B. The passage says nothing about this topic.
C. The encyclopedia listed references.
D. Leo compared claims and checked information.

123. What does “verify” mean as it is used in the passage?

A. to check whether something is accurate
B. a place to eat
C. a kind of toy
D. a type of vehicle

124. Which statement is explicitly supported by the passage?

A. Every example in the passage is described as impossible.
B. The blog did not name its sources.
C. The passage gives no information about the topic.
D. The topic has no connection to everyday life.

125. What is the author’s main purpose?

A. to persuade readers to buy a product
B. to explain or inform readers about a topic
C. to tell a fictional adventure
D. to describe a personal dream

126. Which text feature or reading strategy would best help a reader understand this topic?

A. reading only the final word
B. guessing without using the passage
C. identifying the main idea and supporting details
D. ignoring the details

127. Which conclusion is best supported by the passage?

A. The passage proves that no further information is useful.
B. The topic never changes in any situation.
C. compare claims across sources
D. The opposite of the passage must be true.

128. Why is the detail about the museum page and encyclopedia entry included?

A. it proves the topic is imaginary

B. it replaces all the other details
C. it introduces an unrelated story
D. it helps explain or support the passage's main idea

129. Which question can be answered using information in the passage?

A. What is every reader thinking right now?
B. What did the author eat yesterday?
C. What will happen a hundred years from now?
D. What does the passage explain about choosing a reliable source?

130. Which is the best way to check a claim for a school research report?

A. use only a headline
B. choose the claim that sounds most surprising
C. accept the first result without checking
D. compare reliable sources and check whether the evidence supports it

Passage: Why Cities Plant Trees

Street trees can provide shade, reduce the amount of heat absorbed by pavement, and offer shelter for some birds. Their benefits depend on choosing suitable species and caring for them as they grow. Roots need enough room, and young trees need water. City planners also consider power lines, sidewalks, and local weather before deciding where to plant.

131. What is the main idea of "Why Cities Plant Trees"?

A. Urban trees offer benefits when cities choose appropriate locations and care for them.
B. The passage explains why the topic should be ignored.
C. The passage is mostly about a person's daily schedule.
D. The passage is mainly a list of unrelated facts.

132. Which detail from the passage supports its main idea?

A. Planners consider utilities, sidewalks, and climate.
B. Trees can shade streets and pavement.
C. The passage says nothing about this topic.
D. The passage focuses on an unrelated event.

133. What does "species" mean as it is used in the passage?

A. a kind of toy
B. a type of vehicle
C. a kind or group of living thing
D. a place to eat

134. Which statement is explicitly supported by the passage?

A. Every example in the passage is described as impossible.
B. The passage gives no information about the topic.
C. Some birds use trees for shelter.
D. The topic has no connection to everyday life.

135. What is the author's main purpose?

A. to explain or inform readers about a topic
B. to describe a personal dream
C. to persuade readers to buy a product
D. to tell a fictional adventure

136. Which text feature or reading strategy would best help a reader understand this topic?

A. reading only the final word
B. identifying the main idea and supporting details
C. ignoring the details
D. guessing without using the passage

137. Which conclusion is best supported by the passage?

A. The passage proves that no further information is useful.
B. The topic never changes in any situation.
C. power lines and sidewalks

D. The opposite of the passage must be true.

138. Why is the detail about roots and young trees included?

A. it replaces all the other details
B. it introduces an unrelated story
C. it proves the topic is imaginary
D. it helps explain or support the passage's main idea

139. Which question can be answered using information in the passage?

A. What is every reader thinking right now?
B. What will happen a hundred years from now?
C. What does the passage explain about why cities plant trees?
D. What did the author eat yesterday?

140. Which is the best way to check a claim for a school research report?

A. use only a headline
B. compare reliable sources and check whether the evidence supports it
C. choose the claim that sounds most surprising
D. accept the first result without checking

Passage: Interpreting a Bar Graph

A class recorded how students traveled to school for one week. The bar graph showed that walking was the most common method, followed by the bus, bicycle, and car. The graph summarized the class's responses, not every student in the town. The teacher reminded students to read the title, labels, and scale before comparing bar heights.

141. What is the main idea of "Interpreting a Bar Graph"?

A. A graph must be read carefully, and its data only represent the group surveyed.
B. The passage is mainly a list of unrelated facts.
C. The passage is mostly about a person's daily schedule.
D. The passage explains why the topic should be ignored.

142. Which detail from the passage supports its main idea?

A. The bus was the second most common method.
B. The passage focuses on an unrelated event.
C. The passage says nothing about this topic.
D. Walking was the most common method in the class survey.

143. What does "scale" mean as it is used in the passage?

A. a kind of toy
B. the intervals used to measure values on a graph
C. a type of vehicle
D. a place to eat

144. Which statement is explicitly supported by the passage?

A. The passage gives no information about the topic.
B. Every example in the passage is described as impossible.
C. The graph represented the class's responses.
D. The topic has no connection to everyday life.

145. What is the author's main purpose?

A. to tell a fictional adventure
B. to persuade readers to buy a product
C. to explain or inform readers about a topic
D. to describe a personal dream

146. Which text feature or reading strategy would best help a reader understand this topic?

A. ignoring the details
B. reading only the final word
C. guessing without using the passage
D. identifying the main idea and supporting details

147. Which conclusion is best supported by the passage?

A. The topic never changes in any situation.
B. The passage proves that no further information is useful.
C. The opposite of the passage must be true.
D. title, labels, and scale

148. Why is the detail about the class's responses included?

A. it helps explain or support the passage's main idea
B. it replaces all the other details
C. it introduces an unrelated story
D. it proves the topic is imaginary

149. Which question can be answered using information in the passage?

A. What did the author eat yesterday?
B. What does the passage explain about interpreting a bar graph?
C. What is every reader thinking right now?
D. What will happen a hundred years from now?

150. Which is the best way to check a claim for a school research report?

A. use only a headline
B. choose the claim that sounds most surprising
C. compare reliable sources and check whether the evidence supports it
D. accept the first result without checking

Answer Key

Answers are listed by question number. Correct answer positions were independently shuffled.

1. C	2. C	3. C	4. A
5. A	6. C	7. B	8. B
9. C	10. A	11. A	12. C
13. B	14. A	15. A	16. A
17. B	18. C	19. B	20. D
21. C	22. B	23. A	24. A
25. C	26. D	27. B	28. B
29. D	30. C	31. B	32. B
33. C	34. D	35. D	36. B
37. C	38. B	39. B	40. C
41. B	42. A	43. C	44. D
45. C	46. C	47. D	48. D
49. B	50. D	51. C	52. D
53. B	54. B	55. C	56. D
57. B	58. D	59. A	60. C
61. B	62. B	63. D	64. C
65. B	66. C	67. B	68. C
69. A	70. A	71. D	72. D
73. B	74. B	75. B	76. B
77. B	78. D	79. A	80. D
81. D	82. D	83. C	84. D
