A. The color of a neighbor’s curtains
B. The writer’s favorite snack
C. A recent film review
D. How often buses arrive at major stops

38. Which sentence uses an appropriate transition for contrast?

A. The first plan was inexpensive; similarly, it took more time.
B. The first plan was inexpensive; therefore, it took more time.
C. The first plan was inexpensive; however, it took more time.
D. The first plan was inexpensive; for example, it took more time.

39. Which is the clearest way to organize instructions for planting a seed?

A. Place the steps in random order.
B. Put the last step first and omit the others.
C. List the steps in the order they should happen.
D. Group steps by the writer’s favorite color.

40. Which sentence contains a concrete detail?

A. The weather was interesting.
B. The day seemed different.
C. The thermometer read 18 degrees Celsius at noon.
D. The afternoon felt unusual.

41. Which source is most useful for supporting a factual claim about local rainfall?

A. An anonymous comment without evidence
B. An advertisement for umbrellas
C. A fictional story set in the town
D. A meteorological service’s rainfall records

42. Which sentence best introduces a comparison of two animals?

A. Both bats and birds can fly, but their bodies and habits differ in important ways.
B. Bats are animals.
C. Birds are sometimes noisy.
D. I saw an animal outside.

43. Which sentence would be best in a persuasive speech to classmates?

A. I like switches.
B. If we each switch off unused lights, our class can reduce wasted electricity.
C. Lights are found in many rooms.
D. Electricity is a word.

44. Which sentence is a complete supporting reason?

A. A later library closing time would give working families more time to visit.
B. Some readers enjoy mysteries.
C. Books can be heavy.
D. Libraries have shelves.

45. Which revision improves clarity?

A. The class did the planting of flowers by the entrance area.
B. The class planted marigolds beside the entrance.
C. The entrance was where the class had flowers that were planted.
D. The class, it planted flowers by the entrance.

46. Which sentence uses a transition to summarize?

A. In contrast, the second plan cost more.
B. Overall, the evidence supports the proposed change.
C. Meanwhile, another group arrived.
D. For example, one student volunteered.

47. What is the main goal of editing?

A. Remove all paragraph breaks.
B. Invent a new topic after the draft is finished.
C. Correct errors in grammar, usage, and mechanics.
D. Replace evidence with personal feelings.

48. Which detail best supports a claim that the school needs a quiet study area?

A. Students report difficulty concentrating in the crowded cafeteria.
B. The gym has a basketball hoop.
C. The school colors are blue and gold.
D. The school mascot has a name.

49. Which sentence best establishes a setting in a narrative?

A. It was an important day.
B. The character was surprised.
C. I had an idea.
D. At dawn, fog curled around the empty railway platform.

50. Which is a good reason to use paragraphs?

A. They remove the need for transitions.
B. They make every text exactly the same length.
C. They group related ideas and help readers follow the text.
D. They ensure all claims are correct.

MEDIUM — Questions 51–100

51. Which thesis statement is most focused for an essay about school uniforms?

A. Clothes are things people wear.
B. School is a place where students learn many subjects.
C. Some students like blue and others like green.
D. School uniforms can reduce clothing-related pressure, but schools should consider cost and comfort.

52. Which evidence best supports the claim that later school start times can help adolescents?

A. A list of school colors
B. A study comparing sleep duration and attendance before and after a schedule change
C. A poster shows a sunrise.
D. A student says mornings feel annoying.

53. Which sentence best connects evidence to a claim?

A. Breakfast includes several foods.
B. The survey was printed on white paper.
C. The schedule is on the wall.
D. Because the survey showed that most students skip breakfast when rushed, a later start may help them eat before class.

54. Which revision creates the strongest opening for a narrative about a power outage?

A. Electricity is useful in homes.
B. This story is about a power outage.
C. Power outages sometimes happen.
D. The lights blinked twice, then the whole street fell silent.

A. Some people argue that the change would be too expensive.
B. As a result, the change was adopted.
C. Similarly, other schools have tried it.
D. For example, the change could help.

56. Which response best addresses a counterargument about the cost of a school garden?

A. Gardens contain soil and plants.
B. Although setup costs money, donations and student-maintained beds can reduce ongoing expenses.
C. The school has a fence.
D. Some people dislike vegetables.

57. Which order is most logical for a process paragraph about recycling paper?

A. Form new sheets, collect paper, then decide what paper is.
B. Sort the pulp, sell trees, then begin collecting paper.
C. Explain the conclusion, add unrelated facts, then collect paper.
D. Collect used paper, sort it, process it into pulp, then form new sheets.

58. Which sentence contains a precise, relevant statistic?

A. Water is important to everyone.
B. In the class survey, 42 of 50 students said they would use a refill station.
C. The school is a busy place.
D. Many students probably like water.

59. Which revision best improves coherence between two paragraphs?

A. Remove the topic sentence from both paragraphs.
B. Add a transition sentence that explains how the second paragraph builds on the first.
C. Add a detail about an unrelated sport.
D. Repeat the first paragraph word for word.

60. Which sentence best maintains a consistent narrative point of view?

A. You search the shed, and I found the missing lantern.
B. I searched the shed, and the lantern finds me.
C. I searched the shed, and she found the missing lantern.
D. I searched the shed, and I found the missing lantern.

61. Which is the strongest reason to cite a source in informational writing?

A. It makes the essay longer.
B. It replaces the need to explain the evidence.
C. It guarantees that every statement is correct.
D. It lets readers trace the information and evaluate its credibility.

62. Which sentence best combines ideas while showing cause and effect? “The soil was dry. The seedlings wilted.”

A. The soil, the seedlings wilted because dry.
B. The soil was dry, the seedlings wilted.
C. Because the soil was dry, the seedlings wilted.
D. The seedlings wilted, although the soil was dry.

63. Which phrase is most appropriate for a formal explanatory essay?

A. The findings suggest a relationship between sleep and concentration.
B. Everybody knows this is true.
C. The data is kind of a big deal.
D. The results are super cool.

64. Which revision best removes an unsupported absolute claim?

A. No one can study in a busy room.
B. Every student always learns best in silence.
C. Many students benefit from quiet study spaces.
D. Quiet rooms solve every learning problem.

65. Which detail best develops a character’s motivation in a narrative?

A. The clock had a round face.
B. It was Thursday.
C. She returned to the workshop each evening because she wanted to repair her grandfather’s clock.
D. The workshop had a wooden door.

66. Which sentence best signals a shift from problem to solution?

A. To address the shortage, the council proposed installing two new water tanks.
B. The shortage was discussed yesterday.
C. Many residents attended the meeting.
D. The tank is painted gray.

67. Which is the best way to integrate a quotation into a paragraph?

A. Trees. “Tree cover lowered surface temperatures.”
B. The report says a thing about trees, and I agree.
C. The report notes that “tree cover lowered surface temperatures,” supporting the plan to plant more shade trees.
D. “Tree cover lowered surface temperatures.” This proves everything.

68. Which sentence best supports the claim that public transport can reduce traffic?

A. Buses can be painted in different colors.
B. Traffic lights use electricity.
C. When more commuters ride buses, fewer individual cars may be needed on busy roads.
D. Some cars have leather seats.

69. Which revision best improves a weak conclusion?

A. That is all I have to say.
B. I already mentioned the topic before.
C. Taken together, these examples show why the proposed safety changes deserve a trial period.
D. The topic is now finished.

70. Which sentence best uses a transition to show concession?

A. Therefore, the equipment is costly.
B. Although the equipment is costly, it may save energy over time.
C. For instance, the equipment is costly.
D. Similarly, the equipment is costly.

71. Which outline is best for a compare-and-contrast essay about two ecosystems?

A. Write the conclusion before deciding what to compare.
B. Introduce both ecosystems; compare climate and organisms; explain key differences; conclude.
C. List random facts about one ecosystem only.
D. Describe the writer's weekend, then name two ecosystems.

72. Which detail should be removed from an essay about reducing food waste?

A. A statistic on food discarded by households
B. A suggestion for storing leftovers safely
C. An example of planning meals
D. A description of the writer's favorite football team

73. Which revision best makes the claim more precise?

A. More things would be nice.
B. The playground is not perfect.
C. The school should add two shaded benches near the playground entrance.
D. The school should improve everything.

74. Which sentence uses evidence and reasoning rather than only opinion?

A. Gardens are awesome.
B. The garden produced 18 kilograms of vegetables, showing that the raised beds can support a useful harvest.
C. I think the beds look nice.
D. The garden is definitely the best place.

75. Which sentence best establishes tension in a mystery narrative?

A. The envelope was made of paper.
B. She opened an envelope after lunch.
C. She liked receiving letters.
D. The envelope was addressed to her, but the handwriting belonged to someone who had been missing for years.

76. Which approach best supports an argument about limiting single-use plastics?

A. Use credible data, explain how it supports the claim, and acknowledge practical concerns.
B. Repeat the claim without evidence.
C. Insult anyone who disagrees.
D. Include unrelated stories to make the essay longer.

77. Which revision improves sentence variety?

A. After the rain stopped, we packed the equipment. The field was still muddy, so we chose the paved track.
B. The rain stopped and the rain stopped and we went.
C. We packed equipment. We packed equipment. We packed equipment.
D. After the rain stopped, after the rain stopped, we packed equipment.

78. Which sentence best uses a definition to clarify a technical term?

A. Water is everywhere.
B. A watershed, the area of land that drains into a shared body of water, can affect river quality.
C. A watershed is a word.
D. The river looked interesting.

79. Which method best keeps an informational report objective?

A. Describe opponents as foolish.
B. Use emotional language in every paragraph.
C. Ignore findings that complicate the claim.
D. Distinguish measured results from personal interpretation.

80. Which sentence best provides a transition between a problem paragraph and an evidence paragraph?

A. I like the next idea.
B. The scale of the problem becomes clearer when local data are examined.
C. Problems are bad.
D. Here is another paragraph.

81. Which sentence is the best example of a debatable claim?

A. A road can be long.
B. The city should create protected bicycle lanes on major roads.
C. Bicycles have wheels.
D. Some people own helmets.

82. Which source would be strongest for an essay on a town’s population change?

A. An undated social media post
B. A fictional novel set in the town
C. Official census data from two comparable years
D. A product advertisement

83. Which revision corrects a run-on sentence?

A. The storm ended the crew inspected the roof.
B. The storm ended, the crew inspected the roof.
C. The storm ended and, the crew inspected the roof.
D. The storm ended, and the crew inspected the roof.

84. Which sentence best develops a theme of perseverance in a narrative?

A. Tola owned a blue notebook.
B. The project began on Monday.
C. The workshop was beside a road.
D. After three failed attempts, Tola adjusted the design and tried once more.

85. Which revision best improves an argument’s fairness?

A. Ignore all opposing views.
B. Acknowledge the strongest opposing concern before explaining why the evidence still supports the claim.
C. Remove the evidence that challenges the claim.
D. Claim opponents have no reasons.

86. Which detail is most useful in a how-to article about basic bicycle maintenance?

A. A list of favorite bicycle colors
B. A history of the inventor’s childhood
C. A description of unrelated racing events
D. A clear step explaining how to check tire pressure with a gauge

87. Which sentence best introduces a sequence of research findings?

A. Three patterns emerged from the survey results.
B. I will now say something.
C. Research can be interesting.
D. The survey was a task.

88. Which revision best improves a paragraph with several unrelated details?

A. Group related details together and remove those that do not support the paragraph’s point.
B. Put the details in random order.
C. Delete the topic sentence but keep all details.
D. Keep every detail because more words are better.

89. Which statement is an appropriate limitation in a research report?

A. Because the survey included only one class, the results may not represent the whole school.
B. No limitations need to be mentioned.
C. The survey was perfect.
D. The results prove what everyone thinks.

90. Which sentence uses a transition to show an additional point?

A. Furthermore, the plan would make the entrance safer.
B. Otherwise, the plan would make the entrance safer.
C. Nevertheless, the plan would make the entrance safer.
D. Instead, the plan would make the entrance safer.

91. Which is the best way to revise a narrative ending?

A. Show how the experience changed the narrator's thinking or actions.
B. Repeat the opening sentence several times.
C. Introduce a new main character in the last line without explanation.
D. Stop halfway through the final event.

92. Which sentence best explains the significance of evidence?

A. The chart has four bars.
B. The library is in the school.
C. The signs were printed on paper.
D. This decrease suggests that the reminder signs helped more students return library books on time.

93. Which organization is most appropriate for an opinion essay with several reasons?

A. State the claim, develop each reason with evidence, address a counterargument, and conclude.
B. List evidence without explaining what it supports.
C. Begin with the conclusion and provide unrelated facts.
D. Place reasons randomly and omit the claim.

94. Which sentence best uses a transition to indicate a specific example?

A. For example, the school could collect rainwater for the garden.
B. In contrast, the school could collect rainwater for the garden.
C. Meanwhile, the school could collect rainwater for the garden.
D. Consequently, the school could collect rainwater for the garden.

95. Which revision best removes a vague word?

A. The committee approved the plan on Tuesday.
B. The committee handled it somehow.
C. The committee did that thing then.
D. The committee made stuff happen.

96. Which statement best distinguishes revision from proofreading?

A. Revision improves meaning and organization; proofreading catches surface errors.
B. They both mean publishing the first draft.
C. Proofreading changes the research question but not punctuation.
D. Revision checks only spelling; proofreading invents the thesis.

97. Which sentence is the strongest evidence-based recommendation?

A. The school should fix everything immediately.
B. I do not like the water.
C. Because 7 of 10 sampled taps exceeded the target temperature, the school should inspect the hot-water system.
D. The taps seem weird.

98. Which approach best supports a reader who may not know the topic?

A. Begin with unexplained abbreviations.
B. Assume every reader has the same experience.
C. Remove all examples.
D. Define key terms and provide enough background before using specialized details.

99. Which sentence best links a character's action to its consequence?

A. The team met on Friday.
B. Nia wore a green shirt.
C. The design used three screws.
D. Because Nia admitted the mistake early, the team had time to correct the design.

100. Which revision best strengthens an introduction to a report about energy use?

A. State the question being investigated and briefly explain why it matters.
B. Add a personal story unrelated to energy.
C. List the conclusion before naming the topic.
D. Begin with an unrelated joke.

HARD — Questions 101–150

101. Which thesis is most arguable and specific for an essay on school phone policies?

A. Schools should restrict phone use during instruction while allowing clearly defined exceptions for learning and emergencies.
B. Students use technology.
C. Some people have phones.
D. Phones exist in many shapes.

102. Which evidence most directly supports a claim that a walking school bus can improve safety?

A. A photograph of a school bus
B. A comparison of route incidents and attendance before and after the supervised program began
C. One student says walking is fun
D. A list of popular walking shoes

103. Which revision best qualifies a claim responsibly?

A. In the three classes surveyed, most students favored the new schedule.
B. Every student in the country supports the schedule.
C. The schedule is unquestionably perfect.
D. No one could disagree with the schedule.

104. Which sentence best synthesizes two sources that reach related conclusions?

A. I like the first study more.
B. Source A is long, and Source B is short.
C. Source A is about trees. Source B is also a source.
D. Both studies link tree shade with cooler surfaces, although one examines playgrounds and the other examines streets.

105. Which organization best suits an argument that proposes a solution to a local problem?

A. List facts alphabetically and end abruptly.
B. Present only the writer's preferred solution without explaining the problem.
C. Define the problem, establish its effects, compare possible solutions, defend one with evidence, and address objections.
D. Describe unrelated events, then announce a solution.

106. Which revision most clearly distinguishes correlation from causation?

A. The results are related, which proves the cause.
B. The two measures changed, so one must have caused the other.
C. The data show that attendance and test scores rose together, but they do not prove that one caused the other.
D. Higher attendance caused every score to rise.

107. Which sentence best incorporates a counterclaim and rebuttal?

A. Critics are wrong and should be ignored.
B. Critics argue that bike lanes reduce parking; however, local traffic data suggest protected lanes can improve cyclist safety without significantly delaying buses.
C. Parking is sometimes difficult.
D. Bike lanes exist in many cities.

108. Which revision best improves cohesion in an analytical paragraph?

A. Replace all transitions with exclamation marks.
B. Repeat the entire thesis after every sentence.
C. Use a repeated key term or a precise synonym to connect each explanation to the central claim.
D. Switch topics in every sentence.

109. Which sentence is most appropriate for an evidence-based report when the data are limited?

A. The small sample proves the pattern for everyone.
B. The small sample suggests a possible pattern, but further testing is needed.
C. The pattern is definitely universal.
D. The data cannot ever be useful.

110. Which detail best reveals a character's internal conflict rather than only external action?

A. She crossed the crowded hallway.
B. She wanted to tell the truth, yet feared losing her closest friend.
C. The rain struck the window.
D. The bell rang at noon.

111. Which revision best avoids a false dilemma in an argument about school transport?

A. Anyone who dislikes buses opposes safety.
B. The school must choose either buses or chaos.
C. Only one transport option can ever work.
D. Schools can consider walking routes, buses, cycling, and other options based on local needs.

112. Which sentence most effectively explains why evidence matters?

A. The record was written yesterday.
B. Because the maintenance log records repeated overheating, it supports the claim that the motor needs inspection.
C. The log has a blue cover.
D. The motor is beside the wall.

113. Which sentence uses a concession strategically?

A. Printed books are old.
B. Digital copies exist.
C. Libraries contain books.
D. While printed books remain useful, accessible digital copies can help students who cannot visit the library.

114. Which revision best addresses an audience of local council members?

A. The council could reduce flooding risk by clearing blocked drains before the rainy season.
B. Hey council, sort this mess out.
C. Everybody should just do something.
D. Drains are pretty interesting.

115. Which conclusion best follows an argument supported by several studies but with remaining uncertainty?

A. The evidence means no further review is needed.
B. The evidence supports a trial of the policy, with outcomes monitored before wider adoption.
C. The discussion has ended, so the claim is true.
D. The policy is guaranteed to work everywhere.

116. Which sentence best uses a source while keeping the writer's own reasoning central?

A. I copied the agency's conclusion without explanation.
B. The health agency says something, so I have no argument of my own.
C. The agency is famous, so every claim must be correct.
D. The health agency reports lower injury rates where crossings are improved; this supports prioritizing the two busiest school routes.

117. Which revision best reduces bias in a report?

A. Replace "careless drivers caused the mess" with "the observations recorded several drivers entering the marked area."
B. Use more emotional adjectives.
C. Remove all observations that challenge the writer.
D. Call the drivers irresponsible in every paragraph.

118. Which transition best signals a limitation rather than a contradiction?

A. For example, the sample was small.
B. Even so, the study's small sample limits how broadly its findings can be applied.
C. Therefore, the sample was small.
D. Similarly, the sample was small.

119. Which sentence best develops a causal explanation?

A. The entrance is near the gate.
B. The rain was noticeable.
C. The drain is made of metal.
D. When the drain became blocked, water accumulated at the entrance because it could no longer flow away.

120. Which revision best improves precision in a research question?

A. Is water important?
B. Did something change somewhere?
C. What do people think about everything?
D. How did average daily water use change after the school installed low-flow taps?

121. Which strategy best integrates paraphrased information from a source?

A. Copy a full paragraph without quotation marks.
B. Restate the source's idea accurately in original wording and cite the source.
C. Change only a few words and omit the citation.
D. Use the source's conclusion even when it is irrelevant.

122. Which sentence best signals a shift from description to analysis?

A. The benches are brown.
B. The observation took place on Tuesday.
C. These observations matter because they reveal a pattern in how students use the space.
D. The room has four windows.

123. Which revision best resolves a contradiction in a draft?

A. Delete all evidence.
B. Choose whichever claim sounds stronger.
C. Check the evidence, determine which statement is supported, and revise or qualify the conflicting claim.
D. Keep both claims without explanation.

124. Which sentence most effectively builds a logical chain of reasoning?

A. The school has a room, which is a reason.
B. There are tables, and surveys exist.
C. Students leave, so all furniture is bad.
D. The survey identifies a shortage of quiet seats; observations show students leaving to find space; therefore, adding study tables may address a documented need.

125. Which statement best demonstrates an appropriate limitation of a narrative's point of view?

A. The story has a beginning and an ending.
B. Because the story follows only Ayo's thoughts, readers cannot know exactly what the other characters intend.
C. The setting is a classroom.
D. The narrator knows every character's thoughts even though the story is limited to Ayo.

126. Which revision best avoids an overgeneralization?

A. Planners solve every problem for every learner.
B. No student can organize work without a planner.
C. All students who use planners always succeed.
D. In this sample, students who used the planner submitted more assignments on time.

127. Which sentence uses a transition to show a logical implication?

A. The test group improved; similarly, the team recommended further trials.
B. The test group improved; conversely, the team recommended further trials.
C. The test group improved; for instance, the team recommended further trials.
D. The test group improved after practice; consequently, the team recommended further trials.

128. Which is the strongest way to introduce a technical term for a general audience?

A. A load-bearing wall, a wall that supports weight from above, must be assessed before removal.
B. Walls are interesting.
C. The term is technical, so no explanation is needed.
D. Load-bearing wall.

129. Which revision best balances an engaging narrative voice with clarity?

A. Add slang to every sentence regardless of character.
B. Keep vivid details that reveal the narrator's perspective, but clarify actions that readers may misunderstand.
C. Use long sentences even when the action becomes confusing.
D. Remove all sensory details.

130. Which sentence best distinguishes fact from interpretation?

A. The meter recorded 12.4 kWh, so the afternoon shift was irresponsible.
B. The afternoon shift is always wasteful.
C. The meter proves what every worker did.
D. The meter recorded 12.4 kWh; this may indicate higher use during the afternoon shift.

131. Which revision best improves the fairness of a comparison between two programs?

A. Compare similar participants, time periods, and outcome measures in both programs.
B. Choose the program with the more appealing name.
C. Use different measures for each program without explanation.
D. Compare one program’s best result with the other program’s worst.

132. Which sentence best demonstrates synthesis rather than a list of source summaries?

A. The first report discusses shade. The second report discusses paths.
B. Report A was published first.
C. Together, the reports suggest that shade and safe paths both influence outdoor activity, so the proposal should address both design features.
D. Both reports contain paragraphs.

133. Which revision best clarifies the scope of a claim?

A. The proposal fixes every school problem.
B. The proposal will eliminate all waste forever.
C. The proposal may reduce lunchtime litter in the courtyard during the trial period.
D. The proposal changes everything.

134. Which sentence best explains a limitation without dismissing useful findings?

A. The survey has no limitations.
B. Although the survey was small, its responses identify issues worth examining in a larger study.
C. The survey proves the answer for everyone.
D. The survey was small, so every response is worthless.

135. Which narrative detail best foreshadows a later discovery?

A. The hallway had white walls.
B. Before leaving, Kemi noticed fresh mud on the locked storeroom handle.
C. Kemi ate lunch before leaving.
D. The clock showed three o’clock.

136. Which revision most effectively removes an irrelevant digression?

A. Add more holiday details to make the report longer.
B. Delete the paragraph about the writer’s holiday because it does not support the report’s central question.
C. Move the holiday paragraph to the middle of every section.
D. Repeat the holiday paragraph in the conclusion.

137. Which sentence best explains the significance of a counterexample?

A. The result appears in a table.
B. A counterexample is another example.
C. The trial was completed on Friday.
D. One failed trial suggests the method may depend on conditions that the original claim did not address.

138. Which choice best describes a strong research-based conclusion?

A. It introduces unrelated evidence and avoids the research question.
B. It claims certainty beyond what the evidence supports.
C. It synthesizes the main findings, answers the research question, and notes important limitations.
D. It repeats the introduction word for word.

139. Which revision best maintains an appropriate formal style?

A. The whole thing was a huge win.
B. The results are crazy good.
C. The findings indicate that the intervention may improve completion rates.
D. The intervention totally rocks.

140. Which sentence most effectively links a recommendation to evidence and a condition?

A. The entrance floods, and schools exist.
B. Drains are common.
C. The school should change something.
D. Because the entrance floods after heavy rain, the school should clear the drain and review the area again after the next storm.

141. Which sentence best uses a concession without weakening the main claim unnecessarily?

A. The pilot requires staff time, so it cannot work.
B. The pilot is perfect despite any evidence.
C. Staff time is a topic.
D. Although the pilot requires staff time, the attendance data justify testing it for one term.

142. Which revision best strengthens an explanation of a pattern?

A. Describe the pattern, cite the relevant measurements, and explain how the measurements support the interpretation.
B. State that the pattern is obvious and move on.
C. Use a personal preference as the only explanation.
D. Repeat the measurements without interpretation.

143. Which sentence best distinguishes an inference from an observed fact?

A. The floor was wet at 8 a.m., so the leak definitely began at midnight.
B. The floor was wet at 8 a.m.; the leak may have started overnight.
C. The leak began overnight; no evidence is needed.
D. The floor was wet, which proves who caused it.

144. Which revision best makes a multi-step explanation easier to follow?

A. Mix stages and conclusions randomly.
B. Put all stages in one long sentence without transitions.
C. Use numbered stages, clear transitions, and a brief explanation of each stage’s purpose.
D. List only the final stage.

145. Which approach best responds to feedback that a draft’s argument is hard to follow?

A. Add more complex words to every sentence.
B. Ignore the feedback because the draft is finished.
C. Clarify the claim, reorder reasons logically, and make the links between evidence and conclusions explicit.
D. Remove the evidence and keep the conclusion.

146. Which sentence best reflects a nuanced conclusion about a local recycling trial?

A. The trial solved all waste problems permanently.
B. The trial proves recycling always works in every setting.
C. The trial reduced mixed waste in two buildings, though longer monitoring is needed to judge its effect across the whole school.
D. The trial was pointless because it was not perfect.

147. Which choice best explains why a writer should consider audience?

A. The writer should avoid explaining the topic.
B. Audience matters only when choosing a title.
C. Audience knowledge and needs affect what background, evidence, tone, and vocabulary will make the message effective.
D. Every audience prefers the same words and details.

148. Which revision best improves an argument that relies on an anecdote alone?

A. State that personal experience cannot ever be useful.
B. Remove all evidence except the anecdote.
C. Make the anecdote more dramatic and use it as proof for everyone.
D. Add broader, credible evidence and explain whether the anecdote reflects a wider pattern.

149. Which sentence best creates a purposeful ending for a narrative?

A. It was still Thursday.
B. The workshop had a door.
C. As I locked the workshop, I realized the repair had taught me to be patient with both machines and myself.
D. Then the story stopped.

150. Which revision best makes a recommendation measurable?

A. Reduce food waste a lot.
B. Make the cafeteria better somehow.
C. Stop wasting food forever.
D. Set a target of reducing cafeteria food waste by 15% over the next semester and track weekly totals.

Answer Key

Answers are listed in exact numerical order: 1–50, 51–100, and 101–150.

No.	Ans.	No.	Ans.	No.	Ans.
1	D	51	D	101	A
2	C	52	B	102	B
3	D	53	D	103	A
4	D	54	D	104	D
5	D	55	A	105	C
6	A	56	B	106	C
7	D	57	D	107	B
8	D	58	B	108	C
9	B	59	B	109	B
10	A	60	D	110	B
11	D	61	D	111	D
12	C	62	C	112	B
13	D	63	A	113	D
14	A	64	C	114	A
15	A	65	C	115	B
16	B	66	A	116	D
17	D	67	C	117	A
18	D	68	C	118	B
19	A	69	C	119	D
20	A	70	B	120	D
21	B	71	B	121	B
22	A	72	D	122	C
23	D	73	C	123	C
24	C	74	B	124	D
25	B	75	D	125	B
26	C	76	A	126	D
27	A	77	A	127	D
28	D	78	B	128	A
29	B	79	D	129	B
30	B	80	B	130	D

No.	Ans.	No.	Ans.	No.	Ans.
31	D	81	B	131	A
32	B	82	C	132	C
33	D	83	D	133	C
34	D	84	D	134	B
35	A	85	B	135	B
36	A	86	D	136	B
37	D	87	A	137	D
